

357 Magnum original pressure spec: 47,000 PSI

357 Magnum pressure spec current SAAMI: 35,000 PSI

41 Magnum pressure spec Speer #11: 43,500 CUP

41 Magnum pressure spec current SAAMI: 36,000 PSI (40,000 CUP)

44 Magnum pressure spec Speer #11: 43,500 CUP

44 Magnum pressure spec current SAAMI: 36,000 PSI (40,000 CUP)

(now how does the lack of difference between 41 magnum and 44 Magnum make sense?)

454 Casull SAAMI pressure spec: 65,000 PSI or 50,000 CUP. Hodgdon's shows it to be 55,000 CUP. (lots of varying data with 454 around)
